ING Bank A.Ş.

Publicly Announced Unconsolidated Financial
Statements as of and for the Three-Month Period Ended
31 March 2019 and Independent
Auditors' Review Report

Convenience Translation of the Auditors' Review Report Originally Prepared and Issued in Turkish to English (See Note I in Section Three)

REVIEW REPORT ON INTERIM UNCONSOLIDATED FINANCIAL INFORMATION

To the General Assembly of ING Bank Anonim Şirketi

Introduction

We have reviewed the statement of financial position of ING Bank Anonim Şirketi (the "Bank") as at 31 March 2019 and the unconsolidated statements of profit or loss, profit or loss and other comprehensive income, changes in equity, cash flows and a summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements for the three-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority ("BRSA"), and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by BRSA Legislation (together referred as "BRSA Accounting and Reporting Legislation"). Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of review

We conducted our review in accordance with the Standard on Review Engagements ("SRE") 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not present fairly, in all material respects, the financial position of ING Bank Anonim Şirketi as at 31 March 2019 and its financial performance and its cash flows for the three-month-period then ended in accordance with the BRSA Accounting and Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information provided in the accompanying interim activity report included in Section VII, is not consistent, in all material respects, with the reviewed unconsolidated interim financial statements and explanatory notes.

KPMG Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik Anonim Şirketi A member firm of KPMG International Cooperative

Funda Aslanoğlu, SMMM Partner 3 May 2019 Istanbul, Turkey

Additional paragraph for convenience translation to English:

The accounting principles summarized in Note 3.1, differ from the accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS"). Accordingly, the accompanying financial statements are not intended to present the financial position and results of operations in accordance with accounting principles generally accepted in such countries of users of the unconsolidated financial statements and IFRS.

The unconsolidated financial report of ING Bank A.Ş. prepared as of and for the three month period ended 31 March 2019

Section one

General information

I. History of the Bank including its incorporation date, initial legal status, amendments to legal status

The foundations of ING Bank A.Ş. ("The Bank") were laid in 1984 by the establishment of "The First National Bank of Boston Istanbul Branch", and the current structure has been formed with the below mergers and takeovers. The establishment and historical developments of the Bank are explained below:

"The First National Bank of Boston Istanbul Branch" was established in 1984. In 1990, "The First National Bank of Boston A.Ş." was established to accept deposits and carry out banking transactions, and the Articles of Association of the Bank were officially registered on 31 October 1990 and published in the Turkish Trade Registry Gazette on 5 November 1990. Upon the establishment of the Bank and permission to accept deposits, the assets and liabilities in the balance sheet of "The First National Bank of Boston Istanbul Branch" were transferred to the Bank.

The title of the Bank which was operating as a Turkish Bank with four shareholders including Ordu Yardımlaşma Kurumu ("OYAK"), was changed as "Türk Boston Bank A.Ş." in 1991; and OYAK purchased all other shares and became the sole owner of the Bank in 1993. On 10 May 1996, the title of "Türk Boston Bank A.Ş." was changed as "Oyak Bank A.Ş."

On the other hand, on 22 December 1999, upon a Council of Ministers Decree, the shareholding rights, management and supervision of Sümerbank A.Ş. except for its dividend rights were transferred to Savings Deposit Insurance Fund ("the SDIF") as per the third and fourth paragraphs of Article 14 of the Banking Law. In 2001, the SDIF decided to merge the assets and liabilities of the banks, namely Egebank A.Ş., Türkiye Tütüncüler Bankası Yaşarbank A.Ş., Yurt Ticaret ve Kredi Bankası A.Ş., Bank Kapital A.Ş. and Ulusal Bank T.A.Ş. that have been formerly transferred to the SDIF, into Sümerbank A.Ş.

According to a share transfer agreement executed between the SDIF and OYAK on 9 August 2001, all the shares constituting the capital of Sümerbank A.Ş. whose shares were transferred to the SDIF; were transferred to OYAK by the SDIF. As of 11 January 2002, it was resolved that Sümerbank A.Ş. would settle all its accounts and merge with the Bank and continue its banking operations under the Bank. The merger through transfer was performed on 11 January 2002 upon the approval of the Banking Regulation and Supervision Agency ("BRSA").

In accordance with the permissions of the Competition Board with the decree number 07-69/856-324 dated 6 September 2007 and of the BRSA with the decree number 2416 dated 12 December 2007; the transfer of 1,074,098,150 shares of the Bank that represent the total capital which belongs to OYAK in amount of TL 1,074,098 to ING Bank N.V as of 24 December 2007 has been approved by the Board of Directors decision numbered 55/1 and dated 24 December 2007 and the share transfer has been recorded in Shareholders Stock Register as of the same date. It has been decided to change the title of the Bank from "Oyak Bank A.Ş." to "ING Bank A.Ş." effective from 7 July 2008. The Articles of Association of the Bank has been changed with the Extraordinary General Meeting dated 26 June 2014 in accordance with Turkish Trade Art numbered 6102 and published in Turkish Trade Registry Gazette numbered 8608 and dated 9 July 2014.

ING Bank A.S.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

II. The Bank's shareholder structure, management and internal audit, direct and indirect shareholders, change in shareholder structure during the year and information on bank's risk group

The main shareholders and capital structure as of 31 March 2019 and 31 December 2018 are as follows:

		Prior period		
	Share amount Full TL	Share percentage	Share amount Full TL	Share percentage
ING Bank N.V. Other shareholders total	3,486,267,793 4	100.00	3,486,267,793 4	100.00
Total	3,486,267,797	100.00	3,486,267,797	100.00

As of 31 March 2019, the Bank's paid-in capital consists of 3,486,267,797 shares with a nominal value of TL 1 (Full TL) each.

The Bank's paid-in capital is TL 3,486,268 as of 31 March 2019 and ING Bank N.V. has full control over the Bank's capital.

Other shareholders total represent the total shares of Chairman of the Board John T. Mc Carthy, Vice Chairman of the Board Adrianus J. A. Kas, the member of the Board A. Canan Ediboğlu and Marco Bragadin with a nominal value of TL 1 (Full TL) each.

Mehmet Sırrı Erkan's share with a nominal value of TL 1 (full TL) was transferred to Marco Bragadin on 20 February 2019.

Vice chairman of the Board Mehmet Sırrı Erkan; whose term of duty has expired, has resigned from his duty as of 21 March 2019.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (Amounts expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

Section three

Accounting policies

- I. Explanations on basis of presentation
 - a. The preparation of the unconsolidated financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and regulation on the Regulation on Accounting Applications for Banks and Safeguarding of Documents

The unconsolidated financial statements have been prepared in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" and other regulations, communiqués, explanations and circulars promulgated by the Banking Regulation and Supervision Agency ("BRSA") in relation to accounting and financial reporting principles of banks and for the issues not regulated by as per Turkish Accounting Standards issued by the Public Oversight Accounting and Auditing Standards Authority ("POA") (hereafter, referred as "BRSA Accounting and Financial Reporting Legislation"). The Bank maintains its books in Turkish Lira in accordance with the Banking Law, Turkish Commercial Code and Turkish Tax Legislation.

The unconsolidated financial statements have been prepared at Turkish Lira on a historical cost basis, except for the financial assets and financial liabilities measured on a fair value basis.

The preparation of unconsolidated financial statements in conformity with BRSA Accounting and Financial Reporting Legislation requires the use of certain critical accounting estimates and assumptions by the Bank management to exercise its judgment on the assets and liabilities of the balance sheet and contingent issues as of the balance sheet date. These estimates and assumptions include fair value calculation of financial instruments and impairment of financial assets are being reviewed regularly and, when necessary, adjustments are made and the effects of these adjustments are reflected to the statement of profit or loss.

b. Additional paragraph for convenience translation to English

The differences between accounting principles, as described in the preceding paragraphs, and the accounting principles generally accepted in countries, in which the accompanying financial statements are to be distributed, and International Financial Reporting Standards ("IFRS"), may have significant influence on the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position and results of operations in accordance with the accounting principles generally accepted in such countries and IFRS.

c. Accounting policies and valuation principles applied in the presentation of financial statements

The accounting policies and valuation principles applied in the preparation of unconsolidated financial statements are determined and applied in accordance with BRSA Accounting and Financial Reporting Legislation. These accounting policies and valuation principles are explained in Notes II to XXV below.

The accounting policies adopted in the preparation of the unconsolidated financial statements are consistent with the standards used in the previous year except for the items explained in the article 1-d.

d. Changes in accounting policies and disclosures

The Bank has started to apply TFRS 16 Leases standard in the accompanying unconsolidated financial statements starting from 1 January 2019 for the first time based on the regulation published in the Official Gazette no. 29826 dated 16 April 2018 which came into force starting from 1 January 2019. The effects of TFRS 16 on the financial statements of the Bank are presented in section three, footnote.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

I. Explanations on basis of presentation (continued)

Standards effective as of 1 January 2019

TFRS 16 Leases

TFRS16 Leases standard ("TFRS 16"), effective starting from 1 January 2019, removes the distinction between operating and finance leases applied by the lessee in TAS17 Leases ("TAS 17"). Instead, it is set forth a single accounting model similar to the accounting of finance leases on balance sheet. For lessors, the accounting stays almost the same.

II. Explanations on the strategy of using financial instruments and foreign currency transactions

The Bank manages its financial instruments strategies according to its liability structure. The liability structure is mainly comprised of deposits. The investment instruments are generally chosen from liquid instruments. Thus, liquidity is sustained to meet liabilities. As of the reporting date, the Bank's asset and shareholder's equity structure is sufficient to meet its liabilities.

Due to the risks caused by the volatile currency regime, the Bank does not take significant currency positions. In case of a currency risk due from the customer transactions, the Bank makes contra transactions in order to close the position.

The investment decisions are made taking the balance sheet items' maturity structure and interest rates into consideration. Limits related to the balance sheet are determined. The distribution of assets is determined and income analyses are made according to this distribution.

When carrying out off-balance sheet forward transactions, the Bank aims to perform contra transactions as well, thus paying maximum attention to the currency and interest rate risks. The customer limits for transactions are determined.

The Bank aims to get long term funding in order to eliminate the risks arising from deposits having short term maturity and pays attention to increase the ratio of floating interest rate items within its assets.

Explanations on foreign currency transactions:

Translation gains and losses arising from foreign currency transactions are accounted for within the period in which the transaction occurs. In period-ends, foreign currency denominated monetary assets and liabilities are translated into TL with the exchange buying rates of the Bank prevailing at the reporting date. Gains and losses arising from such transactions are recognized in the statement of profit or loss under the account of foreign exchange gains or losses.

III. Presentation of information related to consolidated subsidiaries

Investments in associates and subsidiaries are accounted in accordance with the "Turkish Accounting Standard on Separate Financial Statements" ("TAS 27") in the unconsolidated financial statements and measured in the financial statements according to their costs. Dividends are recognized in the statement of profit or loss when the right of dividend is obtained.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

IV. Explanations on forward and options contracts and derivative instruments

The Bank's derivative instruments consist of forward buy/sell, swaps, futures, and options contracts.

Derivative financial instruments of the Bank are classified as "Derivative Financial Assets Designated at Fair Value through Profit or Loss" or "Derivative Financial Assets Designated at Fair Value through Other Comprehensive Income" per TFRS 9.

Payables and receivables arising from the derivative instruments are recorded in the off-balance sheet accounts at their contractual values.

Derivative transactions are valued at their fair values subsequent to their acquisition. In accordance with the classification of derivative financial instruments, if the fair value is positive, the amount is classified as "Derivative Financial Assets Designated at Fair Value Through Profit or Loss" or "Derivative Financial Assets Designated at Fair Value Through Other Comprehensive Income", if the fair value is negative, the amount is classified as "Derivative Financial Liabilities Designated at Fair Value Through Profit or Loss" or "Derivative Financial Liabilities Designated at Fair Value Through Other Comprehensive Income". The fair value differences of derivative financial instruments are recognized in the statement of profit or loss under trading profit/loss line in profit/loss from derivative financial transactions. The fair value of derivative instruments is calculated by taking into account the market value of the derivatives or by using the discounted cash flow model.

Explanations on derivative financial instruments held for hedging purpose

As permitted by TFRS 9, the Bank continues to apply hedge accounting in accordance with TAS 39.

The Bank enters into interest rate and cross currency swap transactions in order to hedge the changes in cash flows of the floating-rate financial instruments. While applying cash flow hedge accounting, the effective portion of the changes in the fair value of the hedging instrument is accounted for under "accumulated other comprehensive income or expense to be reclassified to profit or loss" in shareholders' equity, and the ineffective portion is recognised in income statement. The changes recognized in shareholders' equity is removed and included in income statement in the same period when the hedged cash flows effect the income or loss.

Effectiveness tests are performed at the beginning of the hedge accounting period and at each reporting period. The effectiveness tests are carried out using the "Dollar off-set model" and the hedge accounting is applied as long as the test results are between the ranges of 80%-125% of effectiveness.

The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortised to income statement under trading account income/loss caption over the maturity of the hedged item from that date of the hedge accounting is discontinued. While expiring, sale, discontinuing cash flow hedge accounting or when no longer effective the cumulative gains/losses recognised in shareholders' equity and presented under "accumulated other comprehensive income or expense to be reclassified to profit or loss" are continued to be kept in this account.

When the cash flows of hedged item incur, the gain/losses accounted for under shareholders' equity are recognised in income statement considering the original maturity.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

V. Explanations on interest income and expense

Interest income and expenses are recognized on an accrual basis using the effective interest method (the rate which equals the future cash flows of a financial asset or liability to its net book value) by taking into consideration present principal amount.

As of 1 January 2018, the Bank applies the effective interest rate on the amortized cost of the asset for subsequent reporting periods for the financial assets impaired and classified as non-performing loan. Such interest income calculation is based on contractual basis for all financial assets subject to impairment calculation. During calculation of loss given default rate in expected credit loss models effective interest rate is used, thus, calculation of expected credit losses includes calculated interest amount. Therefore, a reclassification is made between the accounts of "Expected Credit Losses" and "Interest Income from Loans" for such calculated interest amount. If the credit risk of the financial instrument improves to the extent that the financial asset is no longer considered as impaired and the improvement can be attributed to an incident that eventually takes place (such as an increase in the loan's credit rating), the system calculates interest income at subsequent reporting periods by applying the effective interest rate to the gross amount.

VI. Explanations on fee and commission income and expenses

Commissions paid for the loans provided and fees and commissions collected from clients in return for these loans are reflected on the statement of profit or loss in the period when they arise. On the other hand, of the fees and commissions collected from clients, the portions exceeding the amounts paid, and the fees and commissions collected without being associated with any cost are treated as an element of the effective interest of the loan, and they are recognized in the statement of profit or loss during the term of the loan on an accrual basis. Fees and commission expenses paid to the institutions and companies granting the loan are treated as an element of the effective interest, and they are associated with the statement of profit or loss during the term of the loan.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

VII. Explanations on financial instruments

Initial recognition of financial instruments

A financial asset or a financial liability is recognized in the statement of financial position only when it is a party to the contractual provisions of the financial instrument. A regular way purchase or sale of financial assets shall be recognised and derecognised, as applicable, using trade date accounting or settlement date accounting. Purchase and sale transactions of securities are accounted at the settlement date.

Initial measurement of financial instrument

The classification of financial instruments at initial recognition depends on the contractual conditions and the relevant business model. Except for the assets in the scope of TFRS 15 Revenue from contracts with customers, at initial recognition, the Bank measures financial asset or financial liabilities at fair value plus or minus, in the case of a financial asset or financial liability not at fair value through profit/loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Classification of financial instruments

On which category a financial instruments shall be classified at initial recognition depends on both the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset. Thus, the Bank has classified all financial assets beginning from 1 January 2018 on the basis of the business model used for the management of these assets and the contractual cash flows.

As per TFRS 9, the Bank classifies a financial asset on the basis of its contractual cash flow characteristics if the financial asset is held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. In order to assess whether the element provides consideration for only the passage of time, an entity applies judgement and considers relevant factors such as the currency in which the financial asset is denominated and the period for which the interest rate is set. When the contractual conditions are exposed to the risks which are not consistent with the basic lending arrangement or variability of cash flows, the relevant financial asset is measured at fair value through profit or loss. The Bank has tested the "Solely Payments of Principal and Interest" test for all financial assets within the scope of TFRS 9 transition and evaluated asset classifications within the business model.

Assessment of business model

As per TFRS 9, the business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.

The Bank's business models are divided into three categories.

A business model whose objective is to hold assets in order to collect contractual cash flows:

A business model whose objective is to hold assets in order to collect contractual cash flows are managed to realise cash flows by collecting contractual payments over the life of the instrument. The financial assets that are held within the scope of this business model are measured at amortised cost when the contractual terms of the financial asset meet the condition of giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Central Bank, banks, money market placements, financial assets measured at amortized cost, loans, lease receivables, factoring receivables and other receivables are evaluated within this business model.

A business model whose objective is achieved by both collecting contractual cash flows and selling financial assets:

The business model in which financial assets are held both for the collection of contractual cash flows and for the sale of financial assets. Fair value change of the financial assets that are held within the scope of this business model are accounted under other comprehensive income when the contractual terms of the financial asset meet the condition of giving rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets measured at fair value through other comprehensive income are evaluated within this business model.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

VII. Explanations on financial instruments (continued)

Other business models:

Financial assets are measured at fair value through profit or loss if they are not held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. Financial assets measured at fair value through profit/loss derivative financial instruments are evaluated within this business model.

Measurement categories of financial assets and liabilities

According to TFRS 9, Bank's financial assets are classified in three main categories as listed below:

- Financial assets measured at fair value through profit/loss
- Financial assets measured at fair value through other comprehensive income and
- Financial assets measured at amortized cost (including credits).

Financial assets and liabilities measured at fair value through profit/loss:

Financial assets at fair value through profit/loss are financial assets other than the ones that are managed with business model that aims to collect contractual cash flows or business model that aims to collect both the contractual cash flows and cash flows arising from the sale of the assets; and if the contractual terms of the financial asset do not lead to cash flows representing solely payments of principal and interest at certain date; that are either acquired for generating a profit from short-term fluctuations in prices or are financial assets included in a portfolio aiming to short-term profit making. Financial assets at the fair value through profit or loss are initially recognized at fair value and remeasured at their fair value after recognition. All gains and losses arising from these valuations are recognized in profit or loss.

Financial assets measured at fair value through other comprehensive income:

As per TFRS 9, the financial investments are measured at fair value through other comprehensive income if financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through other comprehensive income are recognized by adding transaction cost to acquisition cost reflecting the fair value of the financial asset. After the recognition, financial assets at fair value through other comprehensive income are remeasured at fair value. Interest income calculated with effective interest rate method arising from financial assets at fair value through other comprehensive income and dividend income from equity securities are recorded to statement of profit or loss. "Unrealized gains and losses" arising from the difference between the amortized cost and the fair value of financial assets at fair value through other comprehensive income are not reflected in the statement of profit or loss of the period until the acquisition of the asset, sale of the asset, the disposal of the asset, and impairment of the asset and they are accounted under the "Other comprehensive income income/expense items to be recycled in profit or loss" under shareholders' equity.

Equity securities, which are classified as financial assets at fair value through other comprehensive income, that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Equity securities that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

During initial recognition an entity can choose in an irrevocable way to record the changes of the fair value of the investment in an equity instrument that is not held for trading purposes in the other comprehensive income. In the case of this preference, the dividend from the investment is taken into the financial statements as profit or loss.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

VII. Explanations on financial instruments (continued)

Financial assets measured at amortized cost:

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are classified as financial assets measured at amortized cost.

Financial assets measured at amortized cost are initially recognized at acquisition cost including the transaction costs which reflect the fair value of those instruments and subsequently recognized at amortized cost by using effective interest rate method. Interest income obtained from financial assets measured at amortized cost is accounted in statement of profit or loss.

Loans:

Loans represents financial assets other than those held for trading in short term or generated through providing money, commodity and services to debtors.

Loans are financial assets with fixed or determinable payments and not quoted in an active market.

Loans are initially recognized at acquisition cost plus transaction costs presenting their fair value and thereafter measured at amortized cost using the effective interest rate method.

Bank's loans are recorded under the "Loans Measured at Amortized Cost" account.

VIII. Explanations on impairment of financial assets

With the "Regulation on the Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be Set Aside (Provision Regulation)" promulgated by BRSA in the Official Gazette, no. 29750, dated 22 June 2016, the Bank has started calculating provisions as of 1 January 2018, in scope of TFRS 9 for financial instruments, loans and other receivables. Accordingly, loss allowance for expected credit losses is recognized for the financial assets measured at amortised cost and financial assets measured at fair value through other comprehensive income.

Per TFRS 9, loss allowance for expected credit losses is recognised on financial assets measured at amortised cost, financial assets measured at fair value through other comprehensive income, loan commitments and financial guarantee contracts not measured at fair value through profit or loss. Expected credit loss estimates should include objective information weighted according to possibilities and that can be supported about past events, existing conditions and predictions about future economic conditions.

Financial assets within the scope of TFRS 9 are allocated to the three stages according to the change in the quality of the loan after initial recognition and are calculated on the basis of the expected loan loss stage:

- Stage 1: For the financial assets at initial recognition or that do not have a significant increase in credit
 risk since initial recognition. Impairment for credit risk is recorded in the amount of 12-month expected
 credit losses.
- Stage 2: In the event of a significant increase in credit risk since initial recognition, the financial asset is transferred to Stage 2. Impairment for credit risk is determined on the basis of the instrument's lifetime expected credit losses.

A financial asset is transferred from Stage 1 to Stage 2 when there is a significant increase in credit risk after initial recognition. Bank has established a framework which incorporates quantitative and qualitative information to identify significant risk increase on an asset level applying a relative assessment. Each financial asset is assessed at the reporting date to determine significant risk increase.

Bank considers the following criteria.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

VIII. Explanations on impairment of financial assets (continued)

Quantitative criteria: The change in lifetime probability of default is the main trigger the transfer between Stage 1 and Stage 2. The trigger compares probability of default at the origination date versus probability of default at the reporting date, considering the remaining maturity. Assets can be transferred in both directions between Stage 1 and Stage 2. In order to determine if movements can be considered as significant, Bank implements different probability of default thresholds to evaluate absolute and relative changes occurring in both retail and corporate portfolios. Related thresholds are being analyzed by back-testing and revised accordingly if necessary. In this context, the Bank has changed the related thresholds as of 31 March 2019.

Qualitative criteria: Bank considers several indicators aligned with those used in credit risk management. Specific qualitative criteria for retail and corporate portfolio has been defined, according to its particularities and with the policies currently in use. The use of these qualitative criteria is complemented with the use of expert judgement.

- Having past due more than 30 days,
- Loans classified to watch list status according to the decision of the Bank's management,
- ➤ Restructured loans in compliance with "Regulation on the Procedures and Principles for Determination of Qualifications of Loans and Other Receivables by Banks and Provisions to be Set Aside".
- Restructured loans according to an administrative judgement,
- > Other consumer loans of individual clients whose one of the consumer loan transferred to non-performing loan portfolio.
- Stage 3: Stage 3 includes financial assets that have objective evidence of impairment at the reporting
 date. For these assets, lifetime expected credit losses are recognized and interest revenue is
 calculated on the net carrying amount.

The following criteria are taken into consideration in determining the impairment:

- Having past due more than 90 days
- Problems in aspect of client's creditworthiness
- > Collaterals and/or debtor's equities are insufficient for the timely payment of receivables
- > Collection of receivables is considered to be delayed for more than 90 days due to macroeconomic, industry specific or customer specific reasons.

Use of present, past, future information and macroeconomic predictions: Expected loss estimations take into consideration multiple macroeconomic scenarios for which the probability is measured according to past events, existing conditions and predictions about future economic conditions for economic variables (such as unemployment rates, GDP growth, FX rate fluctuations, real estate prices, and short-term interest rates). Bank has defined three macroeconomic scenarios to use for future predictions, a baseline, an up-scenario and a down-scenario. Macroeconomic models are used to convert the parameters used in expected loss estimations to forward looking versions. Different models exist for large corporate, financial institutions, corporate, retail mortgage and retail portfolios.

Expected credit loss measurement:

Bank applies "Probability of Default x Exposure at Default x Loss Given Default" method which also takes the time value of money into account. For Stage 1 financial assets; a forward-looking approach on a twelve-month period is applied in order to calculate expected credit loss. For Stage 2 financial assets; a lifetime expected loss is calculated. The lifetime expected loss is the discounted sum of the portions of lifetime losses related to default events within each period of twelve months till maturity. For Stage 3 financial assets; the probability of default equals 100%, the loss given default and the exposure at default represent a lifetime expected loss calculated based on properties of the defaulted loan.

IX. Explanations on offsetting financial assets

Financial assets and liabilities are shown on the balance sheet at their net amounts when the Bank has a legally enforceable right to offset the recognized amounts and intents to settle the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

X. Explanations on sales and repurchase agreements and securities lending transactions

Marketable securities sold under repurchase agreements ("Repo") are classified as financial assets whose fair value difference is reflected on profit-loss, and which are other comprehensive income or will be measured at amortised cost, in parallel to the classification of financial instruments. Funds provided in return for repo transactions are recognized in the "funds provided by repo transactions" accounts. The income related to repurchase agreements are reflected to the interest income on marketable securities and expenses paid in relation to repurchase agreements are recognized in "interest on money market borrowings" accounts.

Securities ("Reverse repo") that are purchased with repurchase agreements are classified under receivables from reverse repo transactions. Interest income obtained from reverse repo transactions are recognized under the account "interest obtained from money market transactions".

Securities lending transactions are classified under "money market placements" and accruals are calculated for the interest expense occurred.

XI. Explanations on property and equipment held for sale and related to discontinued operations and on payables regarding these assets

Property and equipment held-for-sale consist of tangible assets that were acquired due to non-performing loans and receivables, and are accounted in the financial statements in accordance with the regulations of "Turkish Financial Reporting Standard for Assets Held for Sale and Discontinued Operations "TFRS 5".

The assets that meet the criteria of being classified under assets held for sale are measured at the lower of their book values or fair value less costs to be incurred for sale, depreciation for these assets is ceased and these assets are presented separately in the balance sheet. In order for an asset to be classified as an asset held for sale, the related asset (or the asset group to be disposed) shall be ready to be sold immediately under usual conditions and should have a high possibility to be sold. To have a high possibility of sale, a plan should have been made for the sale of the asset (or the asset group to be disposed) and an active program should have been started by the management, aiming to complete the plan and determine the buyers.

The properties obtained from the Bank's receivables are shown at the fixed assets held for sale line according to the execution of the forward sales agreement.

A discontinued operation is a part of an entity which is classified as to be disposed or held for sale. The results related to discontinuing operations are presented separately in the statement of profit or loss. The Bank does not have any discontinued operations.

XII. Explanations on goodwill and other intangible assets

The intangible assets are measured at their cost calculated by adding the acquisition costs and other direct costs necessary for making the asset in working order. Subsequently, intangible assets are carried at cost less accumulated depreciation and provision for value decrease.

Intangible assets are depreciated according to straight line method and depreciation rates are determined in line with the useful lives of related assets.

The intangible assets

7% - 33%

The Bank does not have goodwill.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

XIII. Explanations on property and equipment

Property and equipment are initially measured at cost calculated by adding the acquisition fees and any directly attributable costs for making the asset in working order. Subsequently, property and equipment is carried at cost less accumulated depreciation and provision for value decrease.

According to precautionary and materiality principles, when the current value of property and equipment is less than their net cost, the net cost which exceeds their current value is recognized in expense account as provision for impairment.

Property and equipment are depreciated according to straight line method and depreciation rates are determined in line with the useful lives of related assets.

Immovables2%Movables, assets acquired by financial leasing2% - 50%Right-of-use assets9% - 50%

The depreciation is set aside at the amount calculated through proportion of the yearly depreciation amount foreseen for the assets held for less than one accounting period to the time for which the asset is held in asset.

Gains and losses on the disposal of property and equipment are reflected to the profit and loss of the related period.

Expenditures for the repair and maintenance of property and equipment are recognized as expense.

There is no injunction, pledge or mortgage on property and equipment.

There is no purchase commitment related to property and equipment.

XIV. Explanations on leasing transactions

a. Accounting of leasing operations as lessor

The Bank does not have any leasing operations as lessor.

b. Accounting of leasing operations as lessee

Assets acquired under financial leases are capitalized at lower of the fair values of leased assets or discounted value of lease installments. While the total amounts of lease amounts are recognized as liability, the related interest amounts are accounted for as deferred interest. Assets subject to financial leases are followed under property and equipment and are depreciated by using straight-line method. The estimated depreciation rates are determined according to their estimated useful lives.

The Bank performs operating lease for branches ATM locations and vehicles. With the "TFRS 16 Leases" standard which became effective as of 1 January 2019, the difference between the operating lease and financial lease has been removed and the lease transactions are started to be recognised under "Tangible Fixed Assets" as an asset and under "Liabilities from Leasing" as a liability. Other operating leases are not considered within the scope of TFRS 16 as they are below the materiality level and the corresponding rent payments are recognized under Other Operating Expenses.

The impact and application of TFRS 16 transition were explained in section three, footnote XXV.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

XV. Explanations on provisions, contingent assets and liabilities

Provisions and contingent liabilities are accounted in accordance with, "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets" ("TAS 37").

Provisions are recognized when there is a present legal or constructive obligation as a result of past events at the balance sheet date; when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate can be made of the amount of the obligation

Provisions are set aside for highly probable and reliably estimated amount of liabilities arisen as a result of prior period events, at the time when such liabilities arise.

XVI. Explanations on obligations related to employee rights

Provision for employee severance benefits has been accounted for in accordance with TAS 19 "Employee Benefits".

In accordance with the existing social legislation in Turkey, the Bank is required to make lump-sum termination indemnities including retirement and notice payments to each employee whose employment is terminated due to resignation or for reasons other than misconduct. The retirement pay is calculated for every working year within the Bank over salary for 30 days or the official ceiling amount per year of employment and the notice pay is calculated for the relevant notice period time as determined based on the number of years worked for the Bank.

The Bank has calculated provision for employee severance benefits in the attached financial statements in accordance with "Turkish Accounting Standard for Employee Benefits ("TAS 19")" by using the "Projection Method" and discounted the total provision by using the current market yield on government bonds based on their previous experience in the issues of completion of personnel service period and severance pay eligibility. Actuarial gains and losses are recognized under equity in accordance with the "TAS 19" standard.

In accordance with the existing social legislation in Turkey, the Bank is required to make contribution to Social Security Institution ("SSI") on behalf of their employees. Other than the contributions that the Bank is required to pay, there is no additional requirement to make payment to neither their employees nor SSI. These premiums are reflected to personnel expenses when they accrue.

Provision for the employees' unused vacations has been booked in accordance with TAS 19 and reflected to the financial statements.

There are no foundations, pension funds or similar associations of which the employees are members.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

XVII. Explanations on taxation

a. Current tax

The Bank is subject to tax legislation and practices effective in Turkey.

While the corporate tax rate was at the rate of 20% since 1 January 2006, for all companies, such rate has been set as 22% for the tax bases of the years 2018, 2019, and 2020 based on the legislation of the Amendment on Certain Tax Laws and Other Laws no. 7061. Furthermore, the Council of Ministers has been authorized to reduce the rate of 22% down to 20%.

While according to the provisions of Corporate Tax Law, No. 5520, exemption shall be applied for 75% of the earnings from the sale of the properties and participation shares that corporations have kept among their assets for at least two full years (provided that they are added in the capital or kept in a special fund account in liabilities for five years as provided in the Law), and from the sales of founders' shares, preference shares and preferred rights they have kept for same duration; Article 89/a of the Law, No. 7061 effective upon promulgation in the Official Gazette, No. 30261, dated 5 December 2017 and Articles 5.1.e and 5.1.f of Corporate Tax Law have been amended, the exemption applied as 75% was decreased to 50% to be effective as of the promulgation of the Law for the above mentioned sale of properties.

Corporate tax rate is applied on the tax base calculated after the addition of the non-deductible expenses in the commercial income of corporations and deduction of exemptions stated in tax laws (such as participation income exemption) and deductions. No other tax is paid unless profit is distributed.

According to the Corporate Tax Law, financial losses can be carried forward to offset against corporate tax base of the related period for up to five years. Tax authorities inspect tax returns and the related accounting records within five years and check the tax calculations.

Corporate tax is required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid in one installment by the end of the fourth month. Pursuant to the tax legislation, an advance tax is calculated and paid based on earnings generated for each quarter. The amounts thus paid are deducted from the tax calculated over annual earning.

Current year tax amounts to be paid are netted off as they are related with prepaid tax amounts.

b. Deferred tax

The Bank calculates and accounts for deferred income taxes for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12") and the related decrees of the BRSA concerning income taxes. In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date. The Law regarding amendments on Certain Tax Laws was approved in The Grand National Assembly of Turkey on 28 November 2017 and the Law was published in the Official Gazette on 5 December 2017. Accordingly, the corporate income tax rate will be increased from 20% to 22% for the years 2018, 2019 and 2020. According to the Law that have been enacted, deferred tax asset and liabilities shall be measured at the tax rate 22% that are expected to apply to these periods when the assets is realised or the liability is settled. For the periods 2021 and after deferred tax assets and liabilities were measured by 20% tax rate. Furthermore, the Council of Ministers has been authorized to reduce the rate of 22% down to 20%.

If transactions and events are recorded in the statement of profit or loss, then the related tax effects are also recognized in the statement of profit or loss. However, if transactions and events are recorded directly in the shareholders' equity, the related tax effects are also recognized directly in the shareholders' equity.

The deferred tax assets and liabilities are reported as net in the financial statements.

Until 1 January 2018, the Bank calculated deferred tax liability on all deductible temporary differences except for general loan reserves, if sufficient taxable profit in future periods to recover such amounts is probable, in accordance with TAS 12 and the changes stated in BRSA circular, No. BDDK.DZM.2/13/1-a-3, dated 8 December 2004. Beginning from 1 January 2018, the Bank has started to calculate deferred tax assets over temporary expected provision losses differences according to TFRS 9 articles.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

XVII. Explanations on taxation (continued)

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period. An entity shall reduce the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or all of deferred tax asset to be utilized.

c. Transfer Pricing

The article no.13 of the Corporate Tax Law describes the issue of transfer pricing under the title of "disguised profit distribution" by way of transfer pricing. "The General Communique on Disguised Profit Distribution by way of Transfer Pricing" published on 18 November 2007 explains the application related issues in detail. According to this Communique, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes. Disguised profit distribution amount will be recognized as share in net profit and stoppage tax will be calculated depending on whether the profit distributing institution is a real or corporate entity, full-fledged or foreign based taxpayer, is subject to or exempt from tax.

As discussed under subject Communique's "7.1 Annual Documentation" section, taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices.

XVIII. Explanations on borrowings

The Bank, whenever required, generates funds from domestic and foreign sources in the form of borrowings, syndications, securitizations, and bill and bond issuances in the local and international markets. The funds borrowed are recorded at their purchase costs and valued at amortised costs using the effective interest method.

XIX. Explanation on issuance of equity securities

There are no issuance of equity securities in 2019.

XX. Explanations on guarantees and acceptances

The Bank's letters of acceptances with its customers are simultaneously realized with customers' payments and are followed in off-balance sheet items.

XXI. Explanations on government incentives

As of the balance sheet date, there is no government grant for the Bank.

XXII. Explanations on segment reporting

An operating segment is a component of an entity:

- That engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity),
- b. Whose operating results are regularly reviewed by the entity's authorised decision maker for the purpose of taking decisions about resources to be allocated to the segment and assessing its performance, and
- c. For which discrete financial information is available.

Reporting according to the operational segment is presented in note VIII of Section Four.

XXIII. Profit reserves and distribution of profit

Under the Turkish Commercial Code ("TCC"), legal reserves consist of first legal reserve and second legal reserve. First legal reserve, appropriated at the rate of 5%, until the total reserve is equal to 20% of issued and fully paid-in share capital. Second legal reserve, appropriated at the rate of at least 10% of distributions in excess of 5% of issued and fully paid-in share capital.

XXIV. Explanations on other disclosures

The accompanying financial statements as of 31 March 2019 are prepared and previous period financial statements are revised in accordance with the "Communique amending the Communique on the Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" published in the Official Gazette dated 1 February 2019 and effective starting from 1 January 2019.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

XXV. Explanation on TFRS 16 leases standard

TFRS 16 Leases standard is published in the Official Gazette no. 29826 dated 16 April 2018 which is effective for the accounting periods after 31 December 2018.

The Bank has started to apply the standard starting from 1 January 2019 for the first time. This standard is applied with modified retrospective approach recognizing the cumulative effect of initially applying the standard at the date of initial application. In this context, comparative financial statements are not restated.

The Bank – as lessee:

The Bank assesses whether a contract is (or contains) a lease at the inception of the contract. A contract is a lease contract or contains a lease on the basis of whether the the right to control the use of an identified asset is being transferred for a period of time, against remuneration. In this case, at the commencement date, the right-of-use assets are recognized under "Tangible Assets" and lease liabilities are recognized under "Lease Payables" by the Bank.

The Bank initially measures the right-of-use asset applying a cost model in the financial statements and it includes the following:

- (a) Lease liabilities in the balance sheet, initially measured at the present value,
- (b) Remaining lease payment amount before or at the commencement date, after all lease incentives are eliminated,
- (c) All initial direct costs beared by the Bank,
- (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The Bank measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses; and adjusted for any remeasurement of the lease liability.

The Bank applies the depreciation requirements in TAS 16 Property, Plant and Equipment in depreciating the right-of-use asset.

At the commencement date, the Bank measures the lease liability at the present value of the lease payments that are not paid at that date.

The lease payments are discounted using the alternative borrowing interest rate in case of implicit interest rate cannot be defined easily.

At the commencement date, the lease payments included into the measurement of lease liabilities are composed of payments will be made during the underlying asset's lease term and payments that are not made at the commencement date are indicated below:

- (a) Remaining amount of fixed payments after elimination of any lease incentives recievable,
- (b) Variable future lease payments resulting from a change in an index or a rate used to determine those payments' initial measurement at the commencement date,
- (c) Amounts expected to be payable under a residual value guarantee by the Bank,
- (d) Purchasing option's cost if the Bank is sure at a reasonable level that purchasing option will be used,
- (e) Payment of the fine due to the termination of the lease if the lease period refers to an option for the termination of the lease.

After the commencement date, the Bank measures the lease liability as indicated below:

- (a) Measures the lease liability by increasing the carrying amount to reflect interest on the lease liability,
- (b) Measures the lease liability by reducing the carrying amount to reflect the lease payments made,
- (c) Remeasures the carrying amount to reflect any reassessment or lease modifications, or to reflect revised in-substance fixed lease.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

XXV. Explanation on TFRS 16 Leases Standard (continued)

Reclassifications and remeasurements during the first time application of TFRS 16 Leases Standard dated 1 January 2019 are presented in the table below:

	31 December 2018	TFRS 16 Reclassification Effect	TFRS 16 Measurement Effect	1 January 2019
Tangible assets(net) (*)	683,472	13,916	296,364	993,752
Other assets (**)	587,198	(13,916)	-	573,282
Lease liabilities (net) (***)	-	-	296,364	296,364

^(*) In accordance with TFRS 16, the Bank recognised a lease liability and a right-of-use asset amounting to TL 296,364 as of 1 January 2019 for leases previously accounted as an operating lease under TAS 17.

During the transition, the Bank recognised lease liability concerning the lease which were previously recognised as operational leasing as per TAS 17. These liabilities were measured based on the discounted current value by using the alternative borrowing rate of interest of remaining lease payments as of 1 January 2019.

Short-term lease agreements with a duration of 12 months or less, have been evaluated within the scope of the exemption granted by the standard and their payments continue to be accounted as expense in the period they incur. Moreover, lease agreements with a remaining duration of 12 months or less as of 1 January 2019, have been evaluated within the scope of the same exemption. Within this scope, TL 3,494 has been paid in the relevant period.

Direct costs are not included while evaluating the right-of-use asset at the initial application date.

If a contract contains extention or termination terms, the Bank management's judgement and assessment are used for the determination of useful life of right-of-use-assets.

^(**) In accordance with TFRS 16, the Bank recognised prepaid lease expenses amounting to TL 13,916 under tangible assets as right-of-use assets which were previously classified under other assets.

^(***) As of 1 January 2019, the weighted average of the alternative borrowing interest rates applied to TL lease liabilities presented in the statement of financial position of the Bank is 17.60%.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

Section four

Information on financial position and risk management of the Bank

I. Explanations on unconsolidated capital

Unconsolidated total capital and capital adequacy ratio has been calculated in accordance with the "Regulation on Equity of Banks" and "Regulation on Measurement and Assessment of Capital Adequacy of Banks."

As of 31 March 2019, the Bank's total capital is TL 11,497,177 and the capital adequacy ratio is 23.22%. As of 31 December 2018, the Bank's total capital amounted to TL 11,119,321 and capital adequacy ratio was 21.74%.

	Current period	Amount related to implementation before 01.01.2014 (*)

Other deductions from shareholders' equity	6,912	(6,912)
Capital		11,497,177

^(*) In accordance with the 9th Clause of the 8th Article of the "Regulation on Equity of Banks", subordinated loans of the Bank amounting to USD 102 million and EUR 90 million are amortised by 20% and then included in Tier II Capital as their remaining maturity is less than five years as of 31 March 2019.

II. Explanation on unconsolidated currency risk

Management of foreign currency risk is differentiated on the basis of "Banking Book" and "Trading Book", where trading book is managed in accordance with foreign currency trading position limits as well as value at risk ("VaR") and banking book is managed foreign exchange position limits scope. The results of measurements are shared periodically with senior management, Asset-Liability Committee, Audit Committee and the Board of Directors. Besides, currency risk is also taken into account in the capital adequacy ratio calculation as part of the market risk under the standard method.

The simple arithmetic average of USD and EUR buying rates of the Bank for the thirty days before the balance sheet date are 5.4894 (Full TL) and 6.2022 (Full TL) respectively.

The Bank's USD and EUR buying rates as of balance sheet date and five business days prior to this date are as follows:

	1 USD	1 EUR
A. The Bank's "foreign exchange buying rates" (31 March 2019)	5.6427	6.3407
Previous days;		
29 March 2019	5.6427	6.3407
28 March 2019	5.5341	6.2170
27 March 2019	5.4163	6.0950
26 March 2019	5.5619	6.2816
25 March 2019	5.6160	6.3539

Net on-balance sheet position	558,440	(10,482,849)	749,906	(9,174,503)
Net off-balance sheet position	(539,563)	10,469,558	(748,022)	9,181,973
Financial derivative assets	7,987,608	19,445,937	1,196,112	28,629,657
Financial derivative liabilities	8,527,171	8,976,379	1,944,134	19,447,684
Non-cash loans	5,566,823	8,243,943	178,836	13,989,602

In the foreign currency risk table:

The principal and accrual of TL 369,085 (31 December 2018: TL 462,816) of foreign currency indexed loans are shown under loans.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

II. Explanation on unconsolidated currency risk (continued)

The foreign currency amounts not included in currency risk table according to the regulation about Foreign Currency Net General Position/Capital Adequacy Standard Ratio are explained below with the order in the table above.

Held-for-trading derivative financial assets: TL 202,071 (31 December 2018: TL 301,939). Held-for trading derivative financial liabilities: TL 139,501 (31 December 2018: TL 181,676). Hedge funds (Effective Portion): TL (6,099) (31 December 2018: TL (4,482)). Interest rate swap (buy) transactions and options (buy): TL 6,594,421 (31 December 2018: TL 4,680,290). Interest rate swap (sell) transactions and options (sell): TL 6,594,421 (31 December 2018: TL 4,680,290).

Financial derivative assets/liabilities include the foreign currency buy/sell transactions indicated below.

Forward foreign currency-buy transactions: TL 907,713 (31 December 2018: TL 454,812). Forward foreign currency-sell transactions: TL 819,947 (31 December 2018: TL 441,022).

III. Explanations on unconsolidated interest rate risk

Interest risk, which refers to the loss which interest sensitive assets and liabilities in and off balance sheet that might be subject to due to the changes in the interest rate as a result of maturity mismatch, is differentiated and managed on the basis of banking book and trading book as part of compliance with both Basel regulations and other international standards. Within this context, in addition to the value at risk limit for trading book, sensitivity limit against interest rate shocks has been determined under trading books and banking books. Capital requirement relating to market risk is calculated through the Standard Method according to Basel II.

In order to hedge interest rate risk, hedging strategies are applied through off-balance sheet transactions provided that the limits determined by the Board of Directors are not exceeded, and interest rate risk is managed by ensuring optimum balance between fixed and floating rate assets within the balance sheet.

The measurement and sensitivity analysis related to the interest rate risk on the balance sheet are performed regularly and the results are shared with the senior management, Asset and Liability Committee, the Audit Committee and the Board of Directors periodically. Internal calculations for the interest rate risk arising from banking books are made on a daily and monthly basis, whereas Interest rate risk standard ratio arising from banking books is reported on a monthly basis to BRSA.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

- V. Explanations on unconsolidated liquidity risk management and liquidity coverage ratio
 - 1. Information on matters related to liquidity risk
 - Information on liquidity risk management, such as risk capacity, responsibilities and the structure of liquidity risk management, the Bank's internal liquidity risk reporting, communication between the Board of Directors and business lines on liquidity risk strategy, policy and application

A policy ("Market Risk Management Policy") which includes measures to be taken and practices that might be applied in normal and stressful economic conditions for liquidity risk management and responsibilities of the senior management. This policy has been approved by the Asset Liability Management Committee and by the Board of Directors. Within the scope of this policy, the liquidity risk is managed under the Asset Liability Management Committee which senior representatives of businesses are members of the Committee.

In accordance with the provisions of the policy, a liquidity buffer that can supply adequate liquidity level under any economic circumstances and which is not subject to the collateral, has been determined. In addition, the Contingency Funding Plan to be implemented in times of stress is currently in force. Besides, an Asset Liability Management Committee and Board of Directors approved liquidity risk appetite has been established in order to enable monitoring and managing the risk numerically. The relevant parameters are analysed regularly and reported to the members of Asset Liability Management Committee and Board of Directors.

Furthermore, the Bank's liquidity buffers are evaluated under different stress scenarios with the comprehensive liquidity stress test approach established in accordance with ING Group's common policies on market risk and particularly new global regulations (Internal Liquidity Adequacy Assessment Process / ILAAP-Internal Liquidity Adequacy Assessment Process). In addition, still in scope of ILAAP, in the Risk Control Self- Assessment process, comprehensive assessments are made related to liquidity risk, and after these risks are identified clearly, their potential financial impact on the Bank's operations is evaluated periodically.

To ensure proactive management of funding liquidity risk, risk thresholds specified on deposit movements and early warning signals are monitored. The Emergency Funding Plan monitoring metrics are not limited to this scope but also include other liquidity risk indicators. The Emergency Funding plan monitoring metrics can trigger decision-making conditions on whether the Bank will implement the Emergency Funding Plan in order to anticipate the potential development of liquidity stress incidents.

b. Information on the centralization degree of liquidity management and funding strategy and the functioning between the Bank and the Bank's subsidiaries

The liquidity risk of the Bank is managed by the Asset and Liability Management. Furthermore, subsidiaries manage their own liquidity risk by themselves. In order to make a central funding strategy, a funding plan including subsidiaries is established every year. In addition, information about the implementation and realization of the funding plan is made to the Asset Liability Management Committee. According to the limits determined by the Board of Directors, liquidity deficit and surplus are tracked and actions are taken in accordance with the price, interest rate and term structure.

c. Information on the Bank's funding strategy including the policies on funding types and variety of maturities

Resource diversification short, medium and long term targets are determined in parallel to business line planning as part of the budget process in the Bank. Besides, the Bank's funding capacity is monitored regularly, and shared with senior management monthly within the Asset and Liability Management Group-Asset Liability Management Committee reporting. In this way, factors which may affect the ability to create additional funding can be followed closely by senior management and the validity of the funding estimates generation capacity can be monitored.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

V. Explanations on unconsolidated liquidity risk management and liquidity coverage ratio (continued)

ç. Information on liquidity management on the basis of currencies constituting a minimum of five percent of the Bank's total liabilities

Almost all of the Bank's liabilities are in TL, USD or EURO, and TL funds comprise of mainly equity, deposits and short-term bond issuance. The Bank's liquidity in TL is managed with repurchase agreements and short-term money market transactions carried out at CBRT/BIST using high quality securities owned by the Bank. While the main purpose is using liabilities in TL in funding TL assets, when necessary FX swap transactions and FC funds are used in creating assets in TL within the limits set by the Board of Directors. Foreign currency funds are obtained through foreign exchange deposit accounts and foreign based foreign currency loans including syndications. Liquidity shortage/surplus values are calculated daily by Asset and Liability Management and these values are reported in Asset Liability Management Committee. Besides, the Total and FC liquidity coverage ratio is calculated on a daily basis, and shared with all units and senior management, and reported separately to Asset Liability Management Committee. The Bank has TL/FC borrowing limits ready to use in Central Bank and other banks.

d. Information on liquidity risk mitigation techniques

The first measure towards the mitigation of the liquidity risk as part of the budget process is planning the reduction of maturity mismatch and funding diversity. Within this context, syndication, other foreign funding, sources provided by the shareholders and other domestic funding opportunities are used. In addition to this, active swap markets are used to provide liquidity in a particular currency. In addition to all these, Contingency Funding Plan monitoring indicators are continuously monitored and reported on a monthly basis to Asset Liability Management Committee. With these indicators, intervals indicating the actions to be taken according to the triggering levels and measurement methods such as actual deposit inputs and outputs, stress test, liquidity buffer level, regulatory and structural liquidity ratios and so on are defined and these intervals support the decision making process. Moreover, in the crisis period, the Contingency Funding Plan has set some measures to bring the Bank's liquidity buffer back to reasonable levels. The important factors that will support the decision making mechanism, including the feasibility of these measures depending on the financial impact, implementation time and stress scenarios of the measures concerned, are explained.

e. Information on the use of stress tests

The Bank has a written liquidity stress testing procedure which includes the implementation of stress testing and related responsibilities and is approved by Asset Liability Management Committee. To ensure that the existing positions remain within risk tolerance, the Market Risk Management and Product Control Group plans, designs, manages, reports to Asset Liability Management Committee and Board of Directors on a regularly basis and reviews the stress tests annually. Stress test scenarios which consider Bank specific, market-wide or both cases, and have short term or long term consequences, are used in stress testing application where the scenario and parameters are revised annually by the Asset and Liability Management and business lines. On the other hand, results of stress testing are used as the leading indicator within the process of activating the Emergency Funding Plan.

f. Overview on emergency and contingency liquidity situation plans

The Bank has established the Asset and Liability Management Committee and Board of Directors approved Contingency Funding Plan, which includes the policies, methods and responsibilities of senior management and business lines that can be applied in stressful situations or when liquidity shortages are experienced. Early warning indicators, which are the leading indicators of emergency funding plan and considered as the precursors of the liquidity shortage or an unexpected situation, are monitored monthly and are presented to the senior management on a monthly basis at Asset Liability Management Committee meetings and Board of Directors by Market Risk Management and Product Control Group. In addition, effective internal and external communication channels are determined and a crisis management team including realistic action plans are established in order to provide emergency liquidity crisis management and implement various elements of the plan. Measurement metrics of the emergency funding plan are revised annually with regards to their compliance with changes in market and stress conditions.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

V. Explanations on unconsolidated liquidity risk management and liquidity coverage ratio (continued)

2. Liquidity coverage ratio

In accordance with BRSA's "Regulation on Banks' Liquidity Coverage Ratio Calculation", promulgated in the Official Gazette, No. 28948, dated 21 March 2014, the Bank calculates and shares the Liquidity Coverage Ratio to BRSA on a weekly basis. Liquidity Coverage Ratio is above the values stated in the regulation.

Dates and values of the lowest and highest FX and total liquidity coverage ratio calculated monthly over the last three months are presented in the below table.

	Minimum	Date	Maximum	Date
TL+FC	222.44	1 March 2019	353.26	29 March 2019

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

Explanations on unconsolidated liquidity risk management and liquidity coverage ratio (continued)

3. Other explanations on unconsolidated liquidity coverage ratio

Short term liquidity is managed within the regulatory limits in the Bank, the liquid assets are managed by using "Liquidity Coverage Ratio" calculations to follow up the minimum liquidity limits and keep sufficient stock of high quality liquid assets to meet net cash outflows. Liquidity coverage ratio is calculated as per the Regulation on Banks' Liquidity Coverage Ratio Calculation. The ratio is affected from Bank's quality liquid asset value not used as guarantee that can be converted to cash any time and Bank's possible cash inflows and outflows arising from net cash assets, liability and off balance sheet transactions.

The Bank evaluates cash equivalents, time and demand deposit accounts held in Central Bank of Turkey, obligatory reserves and debt securities issued by the Treasury and not subject to collaterals as high level quality liquid assets.

The primary sources to meet the liquidity needs of the Bank are funds from interbank money market or financial assets at fair value through other comprehensive income security portfolio by repurchasing agreements or direct sales. Besides borrowing from the Parent Company in medium and long term, in order to manage concentration risk with respect to funding resources, the Bank aims to balance maturity mismatch and protect from liquidity risk by taking actions aiming to increase resources diversification. A strategy targeting small amount deposits is applied as another element of the strategy to protect against concentration risk.

In addition, although the Bank's wide range deposit structure including Orange Account and a large number of individually small saving deposits, it represents a short term funding source as comparable to the sector. However, these deposits renew themselves at the maturity date and remain in the Bank's structure for a longer period than their original maturity.

Details of the Bank's foreign currency balance sheet as of 31 March 2019 are summarized as follows:

Foreign currency borrowings constitute the majority of the foreign currency liabilities. 45% of the Bank's foreign currency liabilities consist of funds obtained from other financial institutions and subordinated loans and 54% is composed of deposits. Cash and cash equivalents comprise 58% and loans comprise 40% of the foreign currency assets. The bank placements have the shortest maturity within the assets denominated in foreign currency.

Details of the Bank's Turkish Lira balance sheet as of 31 March 2019 are summarized as follows:

The majority of Turkish Lira balance sheet's liability consists of deposits. 65% of the Bank's total Turkish Lira liabilities consists of deposits. However, in case of necessity, the Bank has borrowing opportunities from both domestic and foreign banks and Takasbank and BIST repo market. 70% of the assets in Turkish Lira balance sheet are loans granted and 11% are cash and cash equivalents.

The cash flows from derivative financial instruments are included in LCR calculations according to the terms of Regulation. The Bank also considers changes in fair value of the liabilities that result in margin calls when calculating cash outflows.

VI. Explanations on unconsolidated leverage ratio

Leverage ratio table prepared in accordance with the communique "Regulation on Measurement and Assessment of Leverage Ratios of Banks" published in the Official Gazette No.28812 dated 5 November 2013 is presented below. As of 31 March 2019, the Bank's leverage ratio is calculated by taking average of end of month leverage ratios for the last three months is 8.56% (31 December 2018: 7.93%). This ratio is higher than minimum ratio. While the capital increased by 5% mainly as a result of increase in net profits, total risk amount decreased by 3%. Therefore, the current period leverage ratio increased by 63 basis points compared to prior period.

VIII. Explanations on segment reporting

The Bank operates mainly in corporate, SME, commercial and retail banking services. In scope of corporate, SME and commercial banking operations, customers are provided with special banking services including cash management service. In retail banking operations, customers are provided with debit and credit card, retail loan, online banking and private banking services. Spot TL, foreign exchange buy/sell transactions, derivative transactions, and treasury bill/government bond buy/sell transactions are performed at treasury operations.

Information on operating segments is prepared in accordance with the data provided by the Bank's Management Reporting System.

As per the "Communiqué on Reserve Requirements" promulgated by the Central Bank, banks operating in Turkey must keep required reserves as of the balance sheet date in terms of TL, USD / EURO and gold at a rate ranging between 1% and 7% for Turkish lira deposits and liabilities depending on their maturity and at a rate ranging between 4% and 20% for foreign currency deposits and foreign currency other liabilities depending on their maturity. In accordance with the relevant communiqué, the Central Bank pays interest for the reserve requirements which are presented in terms of TL and USD.

Including accruals TL 379,911 (31 December 2018: TL 406,495) of the TL reserve deposits provided over the average balance and TL 1,884,598 (31 December 2018: TL 1,850,723) of the FC reserve deposits provided over the average balance are presented under unrestricted demand deposit account.

Amounting to TL 69,760 (31 December 2018: TL 71,338) of the other provisions consist of provisions set aside as a result of the legal assessment for the lawsuits that are likely to result against the Bank.

The deposit holders of off-shore accounts held at Sümerbank A.Ş. (together with other dissolved banks merged into Sümerbank A.Ş., all of which were ultimately merged into the Bank), which were opened before Savings Deposit Insurance Fund (SDIF) seized these banks, initiates lawsuits against the Bank (former title Oyak Bank A.Ş.). As a result of these lawsuits, the Bank pays certain amounts to these off-shore deposit holders of the dissolved banks. SDIF indemnifies these amounts in accordance with the Share Transfer Agreement entered into between Turkish Armed Forces Assistance (and Pension) Fund (OYAK) and SDIF (STA).

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

II. Explanations and notes related to liabilities of the unconsolidated balance sheet (continued)

SDIF, however, does not fully indemnify the Bank and pays these amounts subject to legal reservation against the STA provisions. SDIF initiated six enforcement proceedings to claim the amount it had indemnified, a total of approximately TL 377 million (Full TL). Upon the Bank's objection to legal grounds of the enforcement proceedings initiated by SDIF against the Bank, SDIF initiated cancellation of objection lawsuits against the Bank. Currently, there are four of such lawsuits: (i) the first case relates to the first enforcement proceeding of approximately TL 21,8 million (Full TL) (the "First Case"), (ii) the second case relates to the second enforcement proceeding of approximately TL 21,8 million (Full TL) (the "Second Case"), (iii) the third case relates to the third and fifth enforcement proceedings of a total of approximately TL 98,7 million (Full TL) (the "Third Case") and (iv) the fourth case relates to the fourth enforcement proceeding of approximately TL 109,5 million (Full TL) (the "Fourth Case"). SDIF has not yet initiated a case in connection with the sixth enforcement proceeding of approximately TL 126 million (Full TL) against which the Bank objected and SDIF filed a lawsuit (the "Sixth Case") for the cancellation of objection lawsuit. Furthermore, SDIF initiated the seventh enforcement procedure for approximately TL 52 million for payments made by SDIF in 2017 and the Bank objected to this payment request. SDIF sued for this seveth enforcement and the case is going on the first instance court.

In the First Case, the first instance court ruled in favor of the Bank, which was later reversed by the Supreme Court of Appeals (Yargıtay). Currently, the First Case is before the first instance court following the appellate decision, where the court of first instance decided to obtain an expert opinion in accordance with the Supreme Court of Appeals' decision. Following the court appointed expert's examination of the case, the expert report is completed and it is in favor of the Bank. The first instance court decided in favor of the Bank however SDIF is entitled to appeal against the decision. The first instance court held the trial of the Second Case, Third Case and Fourth Case together due to the first instance court's earlier decision to merge these cases. However, the first instance court only ruled on the merits of the Second Case in favor of ING Bank A.Ş. and rejected SDIF's claims and decided to demerge each of the Third Case and the Fourth Case from the Second Case. In the proceedings held after the court's demerger decision, the court decided in favor of the Bank for each case. Also in the sixth case, the first instance court decided in favor of the bank. The court's decision in the Second Case and in the other cases are subject to a two-tiered appeal, i.e., appeal before the regional appellate court and the Supreme Court of Appeals.

On the other hand, there is an administrative law dispute between the Bank and SDIF. The Bank has filed a lawsuit for the annulment of the administrative resolution No. 2013/36 dated 31 January 2013 of SDIF's Fund Board (the "SDIF Fund Board Decision"), which constitutes the legal basis of the SDIF's abovementioned actions. Although the first instance administrative court ruled in favor of the Bank to annul the SDIF Fund Board Decision, the Council of State (i.e., the Administrative Supreme Court of Appeals, Danıştay) reversed the first instance court's decision on the grounds that the administrative courts lack jurisdiction because the dispute was a matter of private law and not one of administrative law. The Bank submitted a motion for the post judgment relief, i.e., correction of judgment which the Council of State rejected. Upon completion of the Council of State's review, the first instance court rendered a decision in line with the Council of State's decision against which the Bank (claiming the annulment of the SDIF Fund Board Decision) and SDIF (claiming the determination of the SDIF Fund Board Decision's legal validity by the administrative courts rather than a lack of jurisdiction decision) filed an appeal.

No provisions were set aside in respect of the amounts that the Bank paid in connection with the offshore lawsuits, court decisions on off-shore lawsuits and lawsuits filed by SDIF, considering the (i) relevant provisions of the STA, (ii) relevant provisions of the of the Share Purchase Agreement dated 18 June 2007 relating to the purchase of the Bank's shares (owned by OYAK) by ING Bank N.V. and (iii) the course of the pending lawsuits against SDIF.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

II. Explanations and notes related to liabilities of the unconsolidated balance sheet (continued)

8.3. Information on provisions for employee benefits

As of 31 March 2019, TL 51,523 (31 December 2018: TL 50,903) of TL 28,293 (31 December 2018: TL 29,418) provisions for employee benefits is the unused vacation provision. Full provision is provided for the unused vacation liability.

TL 23,230 (31 December 2018: TL 21,485) of the provisions for employee benefits is the termination benefit provision. In accordance with the labor law, the Bank is required to make lump-sum payments to employees whose employment is terminated due to retirement or for reasons other than resignation and misconduct. The payments are calculated on the basis of 30 days' pay limited to a maximum of historical TL 6,017.60 (Full TL) at 31 March 2019 and TL 5,434.42 (Full TL) at 31 December 2018 per year of employment at the rate of pay applicable at the date of retirement or termination.

In the unconsolidated financial statements dated 31 March 2019 and 31 December 2018, the Bank operating in Turkey has calculated severance pay by taking into account their experience in personnel service completion or termination, and by discounting it via using the forecasted annual inflation and interest rates.

9. Explanations on tax liability

9.1. Explanations on current tax liability

9.1.1. Explanations on tax provision

The Bank has current corporate tax liability as of 31 March 2019 amounting to TL 12,458 (31 December 2018: TL 131,125 current tax asset).

9.1.2. Information on taxes payable

There are no capital commitments in the last fiscal year and in the interim period following the last fiscal year.

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

- II. Explanations and notes related to liabilities of the unconsolidated balance sheet (continued)
 - 12.6. Indicators of the Bank's income, profitability and liquidity for the previous periods and possible effects of future assumptions made by taking into account the uncertainties of these indicators on the Bank's equity:

The Bank's balance sheet is managed in a conservative manner in order to be minimally affected by interest, currency and credit risks. The Bank's operations are aimed to be continued with a conservative approach and with an increasing profitability. The year-end income is transferred to the statutory reserves and extraordinary reserves under the shareholder's equity. The Bank tries to invest the majority of its shareholder's equity in interest bearing assets and to keep investments in non-banking assets such as tangible assets, investments in non-financial subsidiaries limited.

12.7. Information on preferred shares

There are no preferred shares.

12.8. Information on marketable securities revaluation reserve

Foreign exchange difference	-	-	-	-	
Total	(57,406)	-	(14,870)	-	

12.9. Profit reserves and profit distribution

Under the Turkish Commercial Code ("TCC"), legal reserves consist of first legal reserve and second legal reserve. First legal reserve, appropriated at the rate of 5%, until the total reserve is equal to 20% of issued and fully paid-in share capital. Second legal reserve, appropriated at the rate of at least 10% of distributions in excess of 5% of issued and fully paid-in share capital.

As per the decision made at the annual general assembly of shareholders of the Bank on 21 March 2019, the distribution of the net profit of the year 2018, is as follows.

Profit distribution table of 2018	
2018 net profit	1,061,760
A – I. Legal Reserve (TCC 519/A) 5%	(53,088)
B – The First Dividend for Shareholders	-
C – Extraordinary Reserves	(1,007,695)
D – Special funds	(977)

I. Interim unconsolidated activity report including the assessments of the Chairman and CEO on the interim activities (continued)

1.3 Chairman's assessments of the operating period and expectations for the future

In the first quarter of 2019, the markets closely followed the decisions taken by central banks worldwide as well as the expectations from the ongoing trade negotiations between the United States and China.

During this period, the US Federal Reserve (Fed) announced it would be patient concerning rate hikes moving forward while the Fed committee members did not expect any rate hikes in 2019, indicating a major change in the policy stance compared to the previous year. In the meantime, the weakness of economic activity became evident in the Eurozone. The statement by the European Central Bank (ECB) that a rate hike could enter its agenda by no earlier than next year also drew attention. And the high level trade negotiations between the United States and China took place in a positive mood while news of an imminent final deal positively affected the markets in recent months.

On the domestic front, the latest data underlined a recovery in credit growth. In credit growth, in addition to the recovery from the state-owned banks, confidence indicators also show a recovery trend, albeit slow, supporting the expectations that we may have left the most difficult part behind on the economic rebalancing process.

In this period, based on its belief in the Turkish economy, ING Bank continued to invest predominantly in technology and digitalization and to develop products and services in parallel with its next generation banking approach. ING Bank will continue to develop innovative products and services and to invest based on its trust in Turkey. I thank all our stakeholders particularly including our business partners, customers, employees, and our main shareholder for their support and contributions.

John T. Mc Carthy Board Chairman

ING Bank A.Ş.

I. Interim unconsolidated activity report including the assessments of the Chairman and CEO on the interim activities (continued)

1.4 CEO's assessments of the operating period and expectations for the future

ING Bank, operating with the vision to provide customers with easy banking services anytime and anywhere, continues its services and investments without stopping its strong and sustainable growth strategy. We are pleased to observe increasing positive feedback from our customers with the help of digitalization investments and new branch concept that has a customer oriented design and installation while we continue focusing on new channels in digitalization process.

Our Bank has successfully performed in the first quarter of 2019. Based on our unconsolidated financial results, as of 31 March 2019, total assets of the Bank reached to TL 59.7 billion and pre-tax profits to TL 612.7 billion. Our equity volume realized at TL 8 billion level while our capital adequacy ratio reached to 23.22%. Our Bank's total loans realized at TL 34.6 billion level and our deposits increased to TL 35.6 billion.

Our bank continues to work by concentrating on mobile and digital channels, keeping up with the global developments on these issues in order to reach the purpose of keeping our customers always one step ahead. As ING Bank, we will continue our business believing in the sustainable development of Turkey in the future, and we will continue growing together with our customers and Turkey. I would like to thank to our team and business partners contributing to the successful performance of our Bank in the first quarter of the year on behalf of myself and ING Bank management.

Pinar Abay

CEO

ING Bank A.Ş.

Notes to the unconsolidated financial statements for the three-month period ended 31 March 2019 (continued) (All amounts expressed in full of Turkish Lira ("TL") unless otherwise stated)

I. Interim unconsolidated activity report including the assessments of the Chairman and CEO on the interim activities (continued)

1.5 Explanations on the Bank's service types, activities, staff and branch number and Evaluation of the Bank's sector position

The Bank continues its services and operations with 4,003 employees and 223 domestic branches, as of 31 March 2019.

Sector information on March 2019 has not been published yet. According to the sector information disclosed as of the year ended 2018, Bank is the 8th biggest private bank in terms of total assets, loans and deposits.

1.6 Information on research and development about new services and activities

In the accounting period, there has not been any change in the Bank's research and development process about new service and operations.

2. Assessments about financial position and risk management

2.1 Information on Audit Committee's operations in accounting period

The Bank's Ordinary General Assembly meeting was held on 21 March 2019. With the division of duties resolution, no. 18/1, dated 21 March 2019, M. Semra Kuran was elected as Chairman and Adrianus Johannes Antonius Kas was elected as member of the Audit Committee.

2.2 An assessment on financial status, profitability and solvency

According to the unconsolidated financial statements as of 31 March 2019, the asset size of the Bank is TL 59.7 billion and income before tax is TL 612.7 million. As of 31 March 2019, credits constitute 58% of total assets with TL 34.6 billion.

Deposits which is the primary funding source of the Bank, constitutes 60% of the balance sheet with TL 35.6 billion as of 31 March 2019. Even though the large base deposit structure covering small investments represents a short term source in the sector, it remains within the Bank for much longer compared to the original term.

As of 31 March 2019, capital adequacy ratio of the Bank has reached 23.22%. In addition, the Bank has received subordinated loans from its main shareholder amounting to TL 4 billion. As of 31 March 2019, total equities of the Bank has reached TL 8 billion.

Both macroeconomic and increasing competition continued to affect the sustainable profitability of banks. Despite this outlook and the limitations of the sector, with its sound equities and strong asset quality, the Bank has grown steadily in the first quarter of 2019. In parallel to the developments in economy and Bank's balance sheet, in the first quarter of 2019, compared to the same period of the previous year, the Bank net profit increased by 70% and reached TL 491 million.
